

SMARTER SOLUTIONS FOR HEALTHCARE SIMULATION

SIMULATION*io*™

Are you equipped to prepare your learners for the demands of real-world clinical practice?

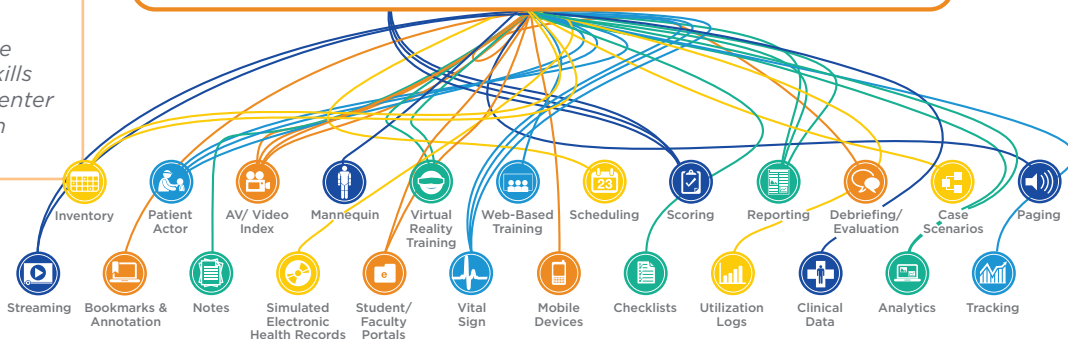

SIMULATION*io*™

“Fundamentally, EMS has integrity... is innovative...and most importantly, EMS is very collaborative, and works with our team in a seamless manner.”

Dale Berg, MD
 Co-Director of the Rector Clinical Skills and Simulation Center
 Thomas Jefferson University

PRODUCT BENEFITS MATRIX

	SIMULATIONIQ ONE ROOM	SIMULATIONIQ CORE	SIMULATIONIQ ENTERPRISE	SIMULATIONIQ ENTERPRISE CLOUD
HD Recording and Live Viewing of Rooms	✓	✓	✓	✓
Simulator Integration with Vitals Feed*, Events Log, and Bookmarks	✓	✓	✓	✓
Video Editing, Sharing, and Debriefing	✓	✓	✓	✓
Live Observation of Multiple Rooms		✓	✓	✓
Inventory Management		✓	✓	✓
KPI Reporting and Analytics of Simulation Activities		✓	✓	✓
Enhanced SP Workflows, Including Integrated Scheduling and Calendar, Chat Features, Analytics, and SimSP™ Mobile App			✓	✓
Advanced AV features, Automated Recording/Paging Schedules, and EHR, Telemedicine, and Distance Simulation Modules (Add-ons may incur additional cost)			✓	✓
Comprehensive Reporting, Competency-Based Tracking, and Library of Cases			✓	✓
Integration with Training in Motion Products (Including Live Session Viewing)		✓	✓	✓
Cloud-Based Multisite Deployments		✓		✓
Database and Complete Video Backups		✓		✓

*may require hardware

ON-PREMISE AND CLOUD-BASED
ENTERPRISE SIMULATION MANAGEMENT

SIMULATIONiQ™ Enterprise

SIMULATIONiQ™ Enterprise brings all your programs, people, and processes into a single, simplified view that saves time, improves clinical outcomes, and provides peace of mind.

“With SIMULATIONiQ Enterprise, we are thrilled to be able to record our standardized patient encounters and increase our volume of students going through our simulation labs.”

Jeanette Wong, RN, MPA
Director, Health Sciences Simulation Center
Samuel Merritt University

All the fundamentals you expect:

- Central command center
- Distributed enterprise network linking resources together
- Internet Protocol (IP) and High Definition (HD) audio-video capture
- Flexible video recording and bookmarking
- Scenario session creation and management
- Manage schedules, calendars and activities
- Live or recorded video viewing
- Multiple simulator integration
- Statistical report generation
- Integrated calendar for both SP and simulation events

Everything you wish you had:

- Telemedicine and virtual simulation using integrated video conferencing
- Customizable interface – see and use only the features you need, expand when you’re ready
- Automated debriefing that follows you from room to room
- Random session set-up for JIT (just-in-time) learning
- More than 100 customizable reports
- Inventory tracking across simulation training activities
- Center utilization dashboards
- Intuitive, simultaneous search across all modules
- Simulated EHR (optional)
- Fully supported IT solution (cloud option)
- Chat between session participants and session administrators/SP Control Room

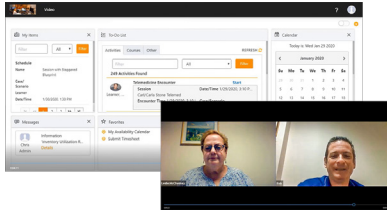

Smarter Simulation. Better Outcomes™

SIMULATIONiQ™

VIRTUAL SOLUTIONS FOR REMOTE AND DISTANCE-BASED SIMULATION

SIMULATIONiQ™ Virtual OSCE

VIRTUAL OSCE SP TRAINING

SIMULATIONiQ™ Virtual OSCE provides a turnkey platform to conduct high-impact standardized patient (SP) encounters in a fully virtual environment and meet your immediate clinical training needs. Seamlessly deploy your OSCE-ready cases. Provide your own SPs or take advantage of our SP Sourcing and SP Training services.

DistanceSIM™

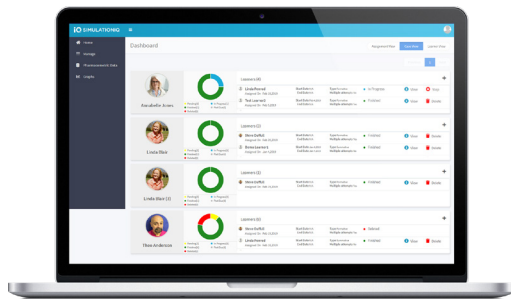

DISTANCE-BASED SIMULATION TRAINING

DistanceSIM™ is the newest product extension for SIMULATIONiQ Enterprise and SIMULATIONiQ Enterprise Cloud, enables Medical, Nursing, and Allied Health Institutions to utilize a combination of physical training rooms and virtual teleconferencing connectivity to conduct live simulation and clinical observation scenarios online.

SIMULATIONiQ™ IPE

INTERACTIVE Case Study™

SimPHARM™

VIRTUAL CLINICAL DECISION TRAINING

Remote learning has become a vital piece of advanced Medical, Nursing, and Allied Health Education and, with the way certain environmental factors have evolved, it is more important than ever. Virtual, case-based technologies like SIMULATIONiQ™ IPE, SimPHARM™, Interactive Case Study™ (ICS), and bring experiential learning online by replicating real-world patient-care experiences.

ON-SITE AND IN-SITU VIDEO RECORDING, REVIEWING, AND DEBRIEFING

SIMULATIONiO™ One Room

SIMULATIONiQ™ One Room is a flexible recording and debriefing solution for clinical simulation management in a one-room environment.

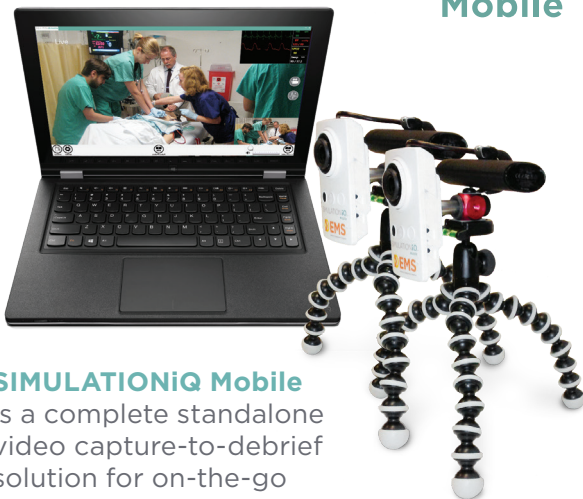

- Pre-configured software and AV hardware package
- Immediate video playback and debriefing
- Multi-room viewing
- Bookmarking and annotating
- Simulator integration
- Up to 500 hours of video storage (1TB)
- Exporting capabilities, video and data

Training in Motion™

- A-V capture
- 500GB of storage
- Bookmarking and annotating
- Simulator integration
- Exporting capabilities, video and data
- Real time data capture

SIMULATIONiO™ Mobile

SIMULATIONiQ Mobile is a complete standalone video capture-to-debrief solution for on-the-go simulation training in any environment.

SIMULATIONiO™ Portable

SIMULATIONiQ Portable is a powerful data capture and debrief solution that enables high-fidelity data collection and performance evaluation for on-the-go training environments.

AV RECORDING AND DEBRIEFING WITH DIRECT SIMULATOR INTEGRATION

SIMULATION*io*™ CORE

SIMULATIONIQ™ CORE is ideal for managing hybrid remote and live simulation programs with robust audio-video workflows, including high quality video recording and immediate debrief processes. It leverages a secure, cloud-based infrastructure, and supports simulator integration and seamless LMS connectivity for learner and faculty access.

Schedule and manage simulation sessions and scenarios

Track inventory across simulation training activities

Record HD Video of Simulation Training Rooms

ONLINE LEARNING

- Record and stream live classroom lectures for high impact online learning
- Upload, manage, and assign learners to EMS courses and modules
- Track learner progress, including video viewing analytics specific to each learner

GRADING AND SCORING

- Assessment data for didactic, in-video quizzes, rubrics and checklists all in one place
- Ability to export all performance data to meet certification guidelines
- Full integration of all assessment, scoring, and grades back to other LMS (such as Canvas, Blackboard, and D2L)

LIVE TRAINING

- Stream live simulation exercises for remote learners
- Record and bookmark key performance events for immediate debriefing of high impact simulation encounters
- Integration with training mannequins, including vitals* **may require hardware*

 canvas **Blackboard**

D2L | Brightspace

“With EMS products, we are able to pull scenarios together and create a video clip of the student performing skills, which he or she will then take to a potential employer upon graduation. Other competing products didn’t offer this option.”

Sharon Decker, PhD, RN
Texas Tech University
